BRING YOUR LAPTOP TO FOLLOW ALONG

Last Meeting:

Tom Stribling; Drug Development

Upcoming Programs:

Feb. 17: State of the County

Thanks to Tom Stribling for a most informative program last week on the process of drug development. He talked about how new drugs are made, why pharmaceuticals cost so much and also described a few of the beneficial mistakes that have been made along the way. Development of a new drug is about a 12 year process involving pre-clinical and clinical trials, application for approval and FDA review. It is a lengthy and expensive process with little impetus for cost reduction. The discovery of penicillin was a "happy accident" as was the use of botulism (Botox) for easing wrinkles and for a blood pressure medication that although not helpful for its intended purpose has improved the intimate lives of a few of our club members.

There are several district Rotary events to mention. This past Saturday, Hank Ross, Christy Kelly and I attended some planning events in Asheville. The District 7670 conference meets in Charlotte on the week-end of April 24-26. It would be great to have a good group of our members present for that gathering. And the clubs in Franklin are planning a party at 6 pm on Feb. 26 to celebrate the 110th anniversary of RI. That will take place at the Post and Beam Restaurant at the Mill Creek Country Club. There is a \$14 dollar dinner charge for that.

Also, I am glad to report that Christy is well on her way to making plans for her year as President and that the dates and organizations for Rotary Bingo have been set.

Finally, this Thursday (not last week as I mistakenly stated previously) is our monthly Board meeting. We will be discussing plans for the spring and will be reviewing the work that Stell Huie has done on our Charities account but if you have items that you would like to see discussed, please let me or one of the other Board members know so that we can get it on the agenda.
